

**QUESTIONNAIRE
FOR DOMESTIC WASTEWATER TREATMENT PLANT**

1. Customer	
Address	
Phone	
E-mail	
Contact person (name, position)	
2. Name and location of facility	
3. Treatment plant capacity	
Daily productivity, m ³ /day	
Hourly productivity (maximum inflow), m ³ /h	
Population, people	
4. Design version of treatment plant	
A) On ground; B) Underground; C) On ground in the embankment; D) Underground in the embankment; E) In a building; F) Other (specify)	
5. Type of facility	
A) New construction; B) Designed object; C) Tender; D) Other (specify)	
6. Discharge of treated waste water	
A) In a reservoir for fishery purposes; B) On the relief; C) Into the city sewer;	
7. Supply of waste water for treatment	
A) Pressure supply of waste water from sewage pumping station; B) Gravity feed (indicate depth and diameter of supply pipeline); C) Other (specify)	
8. Drainage of treated waste water	
A) Pressure (indicate the required outlet pressure); B) Gravity drainage; C) Other (specify)	
9. Comments and additional information	
Signature and date of completion
